

New Levels Of Excellence In  
Pharmaceutical Formulations  
For A Better Life

Semi-regulated markets represent a dynamic and rapidly expanding segment in the global pharmaceutical industry, fueled by increasing healthcare investments, growing populations, and evolving regulatory frameworks. With a projected market growth of over 6% annually, these regions demand affordable, high-quality general therapies that address diverse healthcare needs.

Key challenges include supply chain complexities, inconsistent regulatory standards, and limited access to reliable medications. At Esmero, we are dedicated to overcoming these barriers by delivering trusted, cost-effective pharmaceutical solutions tailored to semi-regulated markets. Through our commitment to quality and collaboration, we empower healthcare providers to improve patient outcomes and drive progress in these vital regions.

## Dynamic Semi Regulated Markets

| Sr. No.: | Product Name   | Strengths                       | Dosage Form |
|----------|--|---------------------------------|-------------|
| 1        | Aceclofenac  | 100mg                           | Tablets     |
| 2        | Aceclofenac + Paracetamol                              | 100mg + 325mg                   | Tablets     |
| 3        | Aceclofenac+ Paracetamol + Chlorzoxazone               | 100 mg + 325mg / 500mg + 250 mg | Tablets     |
| 4        | Albendazole Chewable                                   | 200mg / 400mg                   | Tablets     |
| 5        | Amlodipine   | 5mg / 10mg                      | Tablets     |
| 6        | Artemether+ Lumefantrine                               | 20mg / 80mg + 120mg / 480mg     | Tablets     |
| 7        | Ascorbic Acid Chewable (Sugar Free)                    | 500mg                           | Tablets     |
| 8        | Ascorbic Acid (Vitamin C) + Zinc Chewable (Sugar Free) | 500mg                           | Tablets     |
| 9        | Azithromycin   | 250mg / 500mg                   | Tablets     |
| 10       | Bempedoic Acid   | 180mg                           | Tablets     |
| 11       | Cabergoline  | 0.5mg                           | Tablets     |
| 12       | Calcium Carbonate                                      | 500mg / 600mg                   | Capsules    |
| 13       | Carbamazepine  | 200mg / 400mg                   | Tablets     |
| 14       | Cetirizine   | 10mg                            | Tablets     |
| 15       | Ciprofloxacin  | 250mg / 500mg                   | Tablets     |
| 16       | Dapagliflozin  | 5mg / 10mg                      | Tablets     |
| 17       | Dapagliflozin+ Metformin HCL XR                        | 5mg / 10mg + 500mg / 1000mg     | Tablets     |
| 18       | Diclofenac – Gastro Resistant                          | 50mg / 100mg                    | Tablets     |
| 19       | Diclofenac – Prolonged Release                         | 100mg / 200mg / 400mg           | Tablets     |
| 20       | Diclofenac Sodium+ Paracetamol                         | 50mg + 500mg                    | Tablets     |
| 21       | Diclofenac+ Paracetamol + Chlorzoxazone                | 50mg + 325mg / 500mg + 250mg    | Tablets     |
